S.No.	Name of Drug	Strength
1	Aciclovir Cream	5% w/w, 5g
2	Activated Charcol	10g
3	Benzoic Acid and Salicylic Acid ointment	30g
4	Calamine Lotion	15%w/v 30 ml
5	Chloramphenicol Eye ointment	1% w/w ,5 g
6	Ciprofloxacin Eye Drops	0.3%w/v ,5ml
7	Clotrimazole Cream	1 % w/w, 25g
8	ClotrimazolePessaries	100mg
9	Clove Oil	5 ml
10	Gentian Violet Solution	2%w/v,10 ml
11	Lindane Lotion	1% w/v ,100 ml
12	Neomycin Ointment	1%w/w,15 g
13	Oral Rehydration Salts	
14	Oxymetazoline Nasal Solution	0.05% w/v, 5ml
15	Povidone Iodine Solution	5%w/v, 500ml
16	Silver Sulphadiazine Cream	1 % w/w , 25 g

1. Aciclovir Cream 5 g

INN/Generic Name	Aciclovir Cream; Acyclovir Cream.
Dosage form	Cream
Strength	Each tube contains Acyclovir 5%w/w
Standard	API should meet the monograph requirement/Cream should meet general requirement stated under cream and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1×5g Tubes
Primary Pack	Acyclovir Cream is packaged in a collapsible tube and provided with tamper evident high density polyethylene/ Polypropylene (HDPE) screw cap.
Quantity primary pack in supply unit	Each tube is packed in a printed mono carton & 100 such mono cartons are packed into cardboard boxes NLT 3 ply.
Special Storage	Store protected from light and moisture.
Shelf Life	Minimum 24 Months. At least 3/4 th shelf life must be available at the time of delivery to the designated store.

2. Activated Charcoal 30 g

INN/Generic Name	Activated Charcoal; Decolorising Charcoal
Dosage form	Powder
Strength	Each sachet contains- Activated Charcoal 30g
Standard	API should meet the monograph requirement/Powder should meet general requirement stated under powder and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043
Basic Unit	1×30 g sachet
Primary Pack	Granules containing Activated charcoal shall be packed in a triple laminated printed aluminum foil.
Quantity primary pack in supply unit	100 sachets packed in a cardboard carton NLT 3 ply.
Special Storage	Store protected from moisture.
Shelf Life	Minimum 24 Months. At least 3/4 th shelf life must be available at the time of delivery to the designated store.

3. Benzoic Acid and Salicylic Acid Ointment 30 g	
INN/Generic Name	Benzoic and Salicylic Acid Ointment;Whitfield's Ointment; Compound Benzoic Acid Ointment.
Dosage form	Ointment
Strength	Each tube contains- Benzoic Acid 6% w/w Salicylic Acid 3% w/w
Standard	API should meet the monograph requirement/Ointment should meet general requirement stated under Ointment and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043
Basic Unit	1×30 g Tube
Primary Pack	Benzoic Acid and Salicylic Acid Ointment is packaged in a collapsible tube and provided with tamper evident high density polyethylene/ Polypropylene (HDPE) screw cap.
Quantity primary pack in supply unit	Each tube is packed in a printed mono carton & 100 such mono cartons are packed into cardboard boxes NLT 3 ply.
Special Storage	Store at room temperature.
Shelf Life	Minimum 24 months. At least 3/4 th shelf life must be available at the time of delivery to the designated store.

4. Calamine Lotion 30 ml	
INN/Generic Name	Calamine Cutaneous Suspension; Calamine Lotion
Dosage form	Lotion
Strength	Calamine lotion contains: Calamine 15% w/w Zinc oxide 5% w/w
Standard	API should meet the monograph requirement/Lotion should meet specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043
Basic Unit	1×30ml PET Bottle
Primary Pack	Calamine Lotion packed in clear PET (Polyethylene Terephthalate) bottle provided with ROPP (Roll On Pilfer Proof) cap with EPE (Expanded Polyethylene) liner with tamper evident seal.
Quantity primary pack in supply unit	25 bottles shall be packed in a cardboard box of NLT 3 ply suitably segregated from each other to prevent damage/breakage during transportation.
Special Storage	Store at room temperature. Do not freeze.
Shelf Life	Minimum 24 months. 3/4 th shelf life must be available at the time of delivery to the designated store.

5. Chloramphenicol Eye Ointment 5 g

INN/Generic Name	Chloramphenicol Eye Ointment Chloramphenicol ophthalmic ointment
Dosage form	Ophthalmic Ointments
Strength	Each tube contains- Chloramphenicol 1.0% w/w
Standard	API should meet the monograph requirement/Ointment should meet general requirement stated under eye Ointment and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1×5 g tube
Primary Pack	Chloramphenicol Ointment is packaged in a collapsible tube and provided with tamper evident high density polyethylene/ Polypropylene (HDPE) screw cap.
Quantity primary pack in supply unit	Each tube is packed in a printed mono carton & 100 such mono cartons are packed into cardboard boxes NLT 3 ply.
Special Storage	Store at room temperature.
Shelf Life	Minimum 24 Months. At least 3/4 th shelf life must be available at the time of delivery to the designated store.

6. Ciprofloxacin Eye Drops 5 ml

INN/Generic Name	Ciprofloxacin Eye Drops; Ciprofloxacin Ophthalmic Solution
Dosage form	Ophthalmic Drops (Eye Drops)
Strength	Ciprofloxacin Eye drop contains- Ciprofloxacin (as Hydrochloride) 0.3% w/v
Standard	API should meet the monograph requirement/Eye and Ear drops should meet general requirement stated under Ophthalmic Drops and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043
Basic Unit	1×5ml vial
Primary Pack	Ciprofloxacin Eye Drops are packed in a sterile gamma irradiated Lupoline Vial provided and High Density Polyethylene (HDPE) tamper evident cap / FFS (Form Fill Seal) technology based vial. Each primary package shall be packed in a mono carton.
Quantity primary pack in supply unit	25 vials shall be packed in a cardboard box of NLT 3 ply suitably segregated from each other to prevent damage/breakage during transportation.
Special Storage	Store at room temperature, protected from light.
Shelf Life	Minimum 24 months. 3/4 th shelf life must be available at the time of delivery to the designated store.

7. Clotrimazole Cream 25 g

INN/Generic Name	Clotrimazole Cream (skin)
Dosage form	Cream
Strength	Each tube contains- Clotrimazole 1% w/w
Standard	API should meet the monograph requirement/Cream should meet general requirement stated under Creams and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043
Basic Unit	1 × 25 g Collapsible Tube
Primary Pack	Clotrimazole Cream is packaged in a collapsible tube and provided with tamper evident high density polyethylene/ Polypropylene (HDPE) screw cap.
Quantity primary pack in supply unit	Each tube is packed in a printed mono carton & 100 such mono cartons are packed into cardboard boxes NLT 3 ply.
Special Storage	Store protected from moisture and light
Shelf Life	Minimum 24 months. At least 3/4 th shelf life must be available at the time of delivery to the designated store.

8. Clotrimazole Pessaries

INN/Generic Name	Clotrimazole Pessaries; Clotrimazole Vaginal Inserts; Clotrimazole Vaginal tablets.
Dosage form	Pessaries
Strength	Each Pessary contains- Clotrimazole 100mg
Standard	API should meet the monograph requirement/pessaries should meet general requirement stated under vaginal inserts/pessaries and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043
Basic Unit	1 × 6 pessaries
Primary Pack	6 Clotrimazole Pessaries should be packed in an Aluminum- Aluminum strip packaging
Quantity primary pack in supply unit	A strip containing 6 Clotrimazole Pessaries and an applicator should be packed in a printed monocarton. 25 such monocarton packed in cardboard carton NLT 3 ply A Patient Information Leaflet (PIL) should also be included in the secondary package.
Special Storage	Store protected from moisture and light
Shelf Life	Minimum 24 months. At least 3/4 th shelf life must be available at the time of delivery to the designated store.

9. Clove Oil 5ml

INN/Generic Name	Clove Oil; Clove bud oil. Definition: It is the essential oil obtained by steam distillation from the dried flower buds of <i>Syzygium aromaticum</i>
Dosage form	Oily Liquid
Strength	It contains not less than 75 percent w/w and not more than 85 Percent w/w eugenol.
Standard	Clove oil should meet specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1×5ml Glass Bottle
Primary Pack	Clove Oil is packed in a glass bottle provided with ROPP (Roll On Pilfer Proof) cap having EPE (Expanded Polyethylene) liner.
Quantity primary pack in supply unit	50 bottles are packed in a cardboard carton.
Special Storage	Store protected from heat.
Shelf Life	Minimum 24 months. At least 3/4 th shelf life must be available at the time of delivery to the designated store.

10 . Gentian Violet Solution 10 ml

INN/Generic Name	Gentian Violet Topical Solution
Dosage form	Liquid
Strength	Each ml contain- Gentian Violet (as hexamethylpararosaniline) 20 mg
Standard	API should meet the monograph requirement/Topical solution meet specific product requirement given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1×10 ml PET Bottle
Primary Pack	Gentian Violet Solution packed in a clear pharmaceutical grade PET bottle provided with a tamper evident screw cap.
Quantity primary pack in supply unit	50 bottles suitably segregated in honeycomb partitioning are packed in a cardboard carton NLT 3 ply.
Special Storage	Preserve in well closed container.
Shelf Life	Minimum 24 months. At least 3/4 th shelf life must be available at the time of delivery to the designated store.

11 .Gamma Benzene Hexachloride Lotion100ml

INN/Generic Name	Gamma Benzene Hexachloridelotion; LindaneLotion.
Dosage form	Lotion
Strength	Each bottlecontains- Gamma Benzene Hexachloride/Lindane 1%w/v
Standard	API should meet the monograph requirement/Lotion should meet specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043
Basic Unit	1×100ml PET Bottle
Primary Pack	Lindane Lotion packed in an amber colored PET (Polyethylene Terephthalate) bottle provided with ROPP (Roll On Pilfer Proof) cap having EPE (Expanded Polyethylene) liner with tamper evident seal.
Quantity primary pack in supply unit	50 Bottles suitably segregated in honeycomb portioning from each othershallbe packed in a cardboard carton NLT 3 ply.
Special Storage	Store protected from light
Shelf Life	Minimum 24 months. 3/4 th shelf life must be available at the time of delivery to the designated store.

12. Neomycin Ointment 15 g

INN/Generic Name	Neomycin Sulfate Ointment
Dosage form	Ointment
Strength	Each tube contains- Neomycin (as Neomycin Sulphate) 1%w/w
Standard	API should meet the monograph requirement/Ointment should meet general requirement stated under Ointment and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043
Basic Unit	1×15g Tube
Primary Pack	Neomycin Ointment ispackaged in a collapsible tube and provided with tamper evident high density polyethylene/ Polypropylene (HDPE)screw cap.
Quantity primary pack in supply unit	Each tube is packed in a printed mono carton & 100 such mono cartons are packed into cardboard boxes NLT 3 ply.
Special Storage	Protected from light.
Shelf Life	Minimum 24 Months. At least 3/4 th shelf life must be available at the time of delivery to the designated store.

13. Oral Rehydration Salts

INN/Generic Name	ORS powder; Oral rehydration solution
Dosage form	ORS Powder
Strength	Each sachet contains Glucose 13.5 g Sodium Chloride 2.6 g Potassium Chloride 1.5 g Trisodium Citrate dihydrate 2.9 g (WHO Recommended formula)
Standard	API should meet the monograph requirement/Oral Rehydration salts should meet general requirement stated under Oral Powder and specific requirement of the product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1 × 20.5 g sachet
Primary Pack	ORS powder shall be packed in triple laminated printed Aluminium foil sachet NLT60 micron thickness.
Quantity primary pack in supply unit	100 sachet packed in cardboard carton NLT 3 ply
Special Storage	Store at room temperature.
Shelf Life	Minimum 24 Months. At least 3/4th shelf life must be available at the time of delivery to the designated store.

14. Oxymetazoline Nasal Solution 10 ml	
INN/Generic name	Oxymetazoline Hydrochloride Nasal Solution.
Dosage form	Nasal solution (Nasal Drop)
Strength	Oxymetazoline Nasal solution contain Oxymetazoline Hydrochloride 0.05% w/v
Standard	API should meet the monograph requirement/ solution should meet general requirement stated under drop and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043
Basic Unit	1×10 ml vial/bottle
Primary Pack	Oxymetazoline nasal solution packed in a gamma irradiated sterile tamper evident lupolinevial / amber color glass bottle with dropper..
Quantity primary pack in supply unit	Each vial is packed in a printed mono carton & 100 such mono cartons are packed into cardboard boxes NLT 3 ply.
Special Storage	Preserve in tight containers.
Shelf Life	Minimum 24 months. At least 3/4 th shelf life must be available at the time of delivery to the designated store.

15. Povidone Iodine Solution, 500ml	
INN/Generic Name	Povidone Iodine Solution, Povidone Iodine Topical Solution.
Dosage form	Liquid Dosage form
Strength	Povidone Iodine Solution contains- Povidone Iodine 5%w/v
Standard	API should meet the monograph requirement/Solution should meet specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043.
Basic Unit	1×500ml HDPE Bottle
Primary Pack	Povidone Iodine Solution packed in an opaque High Density Polyethylene(HDPE) bottle having tamper evident cap.
Quantity primary pack in supply unit	25Bottles suitably segregated from each other shall be packed in a cardboard carton NLT 5 ply.
Special Storage	Store protected from light.
Shelf Life	Minimum 2 years. At least 3/4 th shelf life must be available at the time of delivery to the designated store.

16 .Silver Sulphadiazine Cream, 25 g

INN/Generic Name	Silver Sulphadiazine Cream
Dosage form	Creams
Strength	Each tube contains- silver sulphadiazine 1% w/w
Standard	API should meet the monograph requirement/Cream should meet general requirement stated under Creams and specific requirement of the individual product monograph given in any pharmacopoeia recognized by Drug Standard Regulation 2043
Basic Unit	1×25g Collapsible Tube
Primary Pack	Silver sulphadiazine cream is packaged in a collapsible tube and provided with tamper evident high density polyethylene/ Polypropylene (HDPE) screw cap.
Quantity primary pack in supply unit	Each tube is packed in a printed mono carton & 100 such mono cartons are packed into cardboard boxes NLT 3 ply.
Special Storage	Store protected from moisture and light
Shelf Life	Minimum 24 months. At least 3/4 th shelf life must be available at the time of delivery to the designated store.
