

### Oral liquids

S.No.	Name of Drug	Strength
1	Cetirizine HCL Syrup	5mg/5ml,
2	Cloxacillin Syrup	125mg/5ml
3	Metronidazole Benzoate Oral Suspension	200mg/5ml, 60 ml
4	Paracetamol Suspension	125 mg/5ml

**1. Cetirizine HCL Syrup 5mg/ 5ml.**

INN/Generic Name	Cetirizine Hydrochloride Oral Solution, Cetrizine Oral Solution, Cetrizine Syrup.
Dosage form	Oral Liquid
Strength	Each 5 ml contains- Cetirizine Hydrochloride                      5mg
Standard	API should meet the monograph requirement/oral suspension should meet general requirement stated under oral liquid and specific requirement of the individual product monograph given in any pharmacopeia recognized by Drug Standard Regulation 2043
Basic Unit	1 × 30ml PET/glass Bottle
Primary Pack	Cetirizine HCL Syrup shall be packed in an amber colored PET (Polyethylene Terephthalate) bottle provided with ROPP (Roll on Pilfer Proof) cap having EPE (Expanded Polyethylene) liner along with graduated polypropylene measuring cup.
Quantity primary pack in supply unit	25 bottles shall be packed in a cardboard box of NLT 3 ply suitably segregated from each other to prevent damage/breakage during transportation.
Special Storage	Store protected from light.
Shelf Life	Minimum 24 months. 3/4 <sup>th</sup> shelf life must be available at the time of delivery to the designated store.

**2. Cloxacillin Syrup 125 mg/5ml**

INN/Item Description	Cloxacillin Sodium Syrup; Cloxacillin Elixir; Cloxacillin Sodium Elixir; Cloxacillin Oral Solution; Cloxacillin Sodium Oral Solution; Cloxacillin Sodium for Oral Solution.
Dosage form	Dry Syrup; Powder for oral solution
Strength	Each 5ml contains- Cloxacillin (as Sodium)                      125mg
Standard	API should meet the monograph requirement/oral suspension should meet general requirement stated under oral liquid and specific requirement of the individual product monograph given in any pharmacopeia recognized by Drug Standard Regulation 2043.
Basic Unit	1×100ml Glass bottles
Primary Pack	Cloxacillin Syrup shall be packed in an amber colored type III glass bottle provided with ROPP (Roll On Pilfer Proof) cap having EPE (Expanded Polyethylene) liner along with graduated polypropylene measuring cup. The bottle in turn is packed in a printed monocarton.
Quantity primary pack in supply unit	25 bottles shall be packed in a cardboard box of NLT 3 ply suitably segregated from each other to prevent damage/breakage during transportation.
Special Storage	Store protected from moisture.
Shelf Life	Minimum 18 months. At least 3/4 <sup>th</sup> shelf life must be available at the time of delivery to the designated store.

### 3. Metronidazole Benzoate Oral Suspension

INN/Item Description	Metronidazole Benzoate Oral Suspension; Benzoylmetronidazole Oral Suspension; Metronidazole Oral suspension.
Dosage form	Oral Liquids (suspension)
Strength	Each 5 ml suspension contains- Metronidazole (as Benzoate )                      200mg
Standard	API should meet the monograph requirement/suspension should meet general requirement stated under oral liquid and specific requirement of the individual product monograph given in any pharmacopeia recognized by Drug Standard Regulation 2043.
Basic Unit	1×60ml Amber color PET/ glass bottle
Primary Pack	Metronidazole Benzoate Oral Suspension shall be packed in an amber coloured PET (Polyethylene Terephthalate) bottle provided with ROPP (Roll on Pilfer Proof) cap having EPE (Expanded Polyethylene) liner along with graduated polypropylene measuring cup.
Quantity primary pack in supply unit	25 bottles shall be packed in a cardboard box NLT 3 ply suitably segregated from each other to prevent damage/breakage during transportation.
Special Storage	Store protected from light and moisture.
Shelf Life	Minimum 24 months. At least 3/4th shelf life must be available at the time of delivery to the designated store.

### 4 .Paracetamol (Paediatric) Oral Suspension

INN/Generic Name	Paracetamol paediatric Oral suspension; Paediatric Paracetamol Oral Suspension; Acetaminophen Paediatric Oral Suspension.
Dosage form	Oral Liquid (Suspension)
Strength	Each 5ml Suspension contains – Paracetamol    125mg
Standard	API should meet the monograph requirement/suspension should meet general requirement stated under oral liquid and specific requirement of the individual product monograph given in any pharmacopeia recognized by Drug Standard Regulation 2043
Basic Unit	1×60 ml PET/glass bottle.
Primary Pack	Paracetamol Suspension shall be packed in an amber coloured PET (Polyethylene Terephthalate) bottle provided with ROPP (Roll On Pilfer Proof) cap having EPE (Expanded Polyethylene) liner along with graduated polypropylene measuring cup.
Quantity primary pack in supply unit	25 bottles shall be packed in a cardboard box NLT 3 ply suitably segregated from each other to prevent damage/breakage during transportation.
Special Storage	Store at room temperature.
Shelf Life	Minimum 24 months. At least 3/4th shelf life must be available at the time of delivery to the designated store.
